## INTRODUCTION

It is not strictly a specific scenery, but a series of add-ons complementing the default scenery.

This scenery should be above the "additional scenery" in the scenery library. Above 'AirHispania SC' you can add whatever airport you have in the Spain area.

Notice also the Ultimate Terrain Europe position:

Haga clic para descargar contenido actualizado desde Internet.

## Lista de áreas

Habilitada	Area de escenario	Prioridad

## NOTICIAS

## INSTALLATION

It is distributed by Packages so that you can install the one you are interested in.

Each package is installed automatically by an Installer.

The installation process will create a new folder called 'AirHispania SC' within 'Addon Scenery' folder. This new folder must be registered just once in the simulator sceneries library.

At the end of the installation, the installer offers you to run the **Configurator** (see further information in this document).

## UNINSTALLATION

1.- Remove AirHispania SC from the FS scenery library

2.- Remove AirHispania SC folder from Addon Scenery

## **TERRAIN MESH (PENINSULA AND BALEARIC ISLANDS)**

The terrain orography increases dramatically and the VFR flight gains in realism. This mesh terrain covers the Iberian Peninsula, Balearic Islands, Ceuta, Melilla, Southern France and Northern Morocco:

Addon Scenery\AirHispania SC\scenery\N44W010\_N35E005.bgl  
Addon Scenery\AirHispania SC\scenery\N44E000\_N33E007.bgl

For the Canary Islands we recommend to install the Canarysim scenery. We also have a small mesh for this area:

Addon Scenery\AirHispania SC\scenery\malla\_canarias.bgl

It has also been added a higher resolution mesh for some specific areas of Asturias and the Pyrenees:

Addon Scenery\AirHispania SC\scenery\Mesh\_Asturias.bgl  
Addon Scenery\AirHispania SC\scenery\Mesh\_Pirineos.bgl

## **LOW VISIBILITY VFR POINTS**

Package containing all the Spanish VFR reporting points. This package will be updated as more changes come out. Published by AENA, the VFR points are represented by a deflated balloon on the ground:

- Addon Scenery\AirHispania SC\scenery\puntos\_vfr\_low.bgl
- Addon Scenery\AirHispania SC\scenery\add\_balloons.bgl
- Addon Scenery\AirHispania SC\texture\sk\_balloons\_2.bmp
- Addon Scenery\AirHispania SC\texture\sk\_balloons\_2\_lm.bmp
- Addon Scenery\AirHispania SC\texture\sk\_balloons\_basket.bmp
- Addon Scenery\AirHispania SC\texture\sk\_balloons\_basket\_lm.bmp

## **HIGH VISIBILITY VFR POINTS**

Package containing all the Spanish VFR reporting points. This package will be updated as more changes come out. Published by AENA, VFR points are represented by a balloon suspended 500 feet AGL:

- Addon Scenery\AirHispania SC\scenery\puntos\_vfr\_high.bgl
- Addon Scenery\AirHispania SC\scenery\add\_balloons.bgl
- Addon Scenery\AirHispania SC\texture\sk\_balloons\_1.bmp
- Addon Scenery\AirHispania SC\texture\sk\_balloons\_1\_lm.bmp
- Addon Scenery\AirHispania SC\texture\sk\_balloons\_basket.bmp
- Addon Scenery\AirHispania SC\texture\sk\_balloons\_basket\_lm.bmp

## **OBSTACLES TO THE NAVIGATION**

Package adding obstacles higher than 100 meters and clearly marked and illuminated according to rules OACI/ICAO.

They are represented by antennas and wind turbines (wind farms):

- Addon Scenery\AirHispania SC\scenery\obstaculos.bgl
- Addon Scenery\AirHispania SC\scenery\add\_Airport\_Beacon\_Towers.bgl
- Addon Scenery\AirHispania SC\texture\Airport\_beacon\_tower\_H.bmp

## **AENA CHANGES (IFR update)**

This package includes all the changes and modifications in aids to navigation: new radio aids, frequency changes, etc. And also changes produced by magnetic variation in the runways identification, taxiways, new runways, etc

This package is compatible with the updates provided by <http://www.aero.sors.fr/navaids.html>

- Addon Scenery\AirHispania SC\scenery\navaids\_spain\_SC.bgl
- Addon Scenery\AirHispania SC\scenery\nom\_aerodrom\_XXXX\_AF2.bgl

There is a detailed list of changes at the end of the Spanish version of this document.

## HELIPORTS

This package contains Heliports. It tries to high recreate every heliport. The environment has also been recreated in some of them, such as hospitals, etc.

A list of heliports can be found at the end of this document.

They are all accesible through Flight Simulator Airports Menu .  
(search for heliport).

- Addon Scenery\AirHispania SC\scenery\nom\_helipuerto.bgl
- Addon Scenery\AirHispania SC\scenery\nom\_helipuerto\_.bgl
- Addon Scenery\AirHispania SC\scenery\nom\_helipuerto\_A16N.bgl
- Addon Scenery\AirHispania SC\scenery\nom\_helipuerto\_AF2.bgl
- Addon Scenery\AirHispania SC\scenery\add\_airport\_beacon\_towers.bgl
- Addon Scenery\AirHispania SC\texture\sock.bmp
- Addon Scenery\AirHispania SC\texture\heliprt1x.bmp
- Addon Scenery\AirHispania SC\texture\fence.pat
- Addon Scenery\AirHispania SC\texture\tower\_beacon\_small\_bm.bmp
- Addon Scenery\AirHispania SC\texture\tower\_beacon\_small\_lm.bmp

Note: Replace 'nom\_helipuerto' by the name of each heliport.

## AERODROMES

This package contains some new aerodromes and some improved ones. A numerical code will be assigned to aerodromes with no ICAO code (starting with LE01).

You can access to these airports through the Simulator Menu by entering the aerodrome ICAO code:

- Addon Scenery\AirHispania SC\scenery\nom\_aerodromo.bgl
- Addon Scenery\AirHispania SC\scenery\nom\_aerodromo\_AF2.bgl
- Addon Scenery\AirHispania SC\scenery\nom\_aerodromo\_exclude.bgl

Note: Replace 'nom\_aerodromo' by the name of each airfield.

There is an airfield list at the end of this document

## LIGHTHOUSES

This package includes all lighthouses.

- Addon Scenery\AirHispania SC\scenery\faros.bgl

There is a list of all lighthouses at the end of the Spanish version of this document.

## TOWNS

This package has nearly all Spanish towns. It places a 'standard town' on its coordinates.

The town name is written on one of the roofs.

A powerful computer is needed to run this package, otherwise you may have frame problems. Should you have trouble, remove this package.

- Addon Scenery\AirHispania SC\scenery\pueblos.bgl
- Addon Scenery\AirHispania SC\scenery\nombres.bgl
- Addon Scenery\AirHispania SC\scenery\ABWAlphaNumericLibrary2.bgl
- Addon Scenery\AirHispania SC\texture\AlphabetDXI Yellow&Black.bmp

## OSBORNE BULLS

This package contains the famous 'Toros de Osborne' (there are a few of them missing).

- Addon Scenery\AirHispania SC\scenery\toro2object.bgl
- Addon Scenery\AirHispania SC\scenery\toros.bgl
- Addon Scenery\AirHispania SC\texture\Base.bmp
- Addon Scenery\AirHispania SC\texture\negrotoro.bmp
- Addon Scenery\AirHispania SC\texture\toro\_LM.bmp
- Addon Scenery\AirHispania SC\texture\traseratoro\_LM.bmp

The list is at the end of the Spanish version of this document.

## CASTLES

This package contains some castles:

- |  |         |
|--|---------|
| • Castillo de la Floresta - Almodóvar del Río  | Generic |
| • Castillo de Almenara - Peñaflor              | Generic |
| • Alcázar del Rey don Pedro - Carmona          | Generic |
| • Castillo de Luna - Mairena del Alcor         | Generic |
| • Castillo de Marchenilla - Alcalá de Guadaíra | Generic |
| • Castillo de Luna - La Puebla de Cazalla      | Generic |
| • Castillo de Archidona - Archidona            | Generic |
| • Alcazaba de Loja - Loja                      | Generic |
| • Castillo del Moral - Lucena                  | Generic |
| • Castillo del Hornillo - Rambla               | Generic |
| • Castillo del Bailío                          | Generic |
| • Castillo de Gardeny                          | Generic |
| • Castillo de Monzón                           | Generic |
| • Castillo de Loarre                           | Real    |
| • Castillo de Olite                            | Real    |
| • Castillo-palacio de la Aljafería             | Generic |
| • Castillo de los Luna                         | Generic |
| • Castillo de Peracense                        | Generic |
| • Castillo de Ponferrada                       | Generic |
| • Castillo de Valencia de Don Juan             | Generic |
| • Castillo de Argueso                          | Real    |
| • Castillo de Butron                           | Real    |
| • Castillo del Rey                             | Generic |
| • Castillo de las Caldas                       | Generic |
| • Castillo de San Paio de Narla                | Real    |
| • Castillo de Peñafiel                         | Real    |

## MISCELLANEOUS

This package contains all the visual references requested by users (through the form included in the website):

- add\_Airport\_Beacon\_Towers.BGL
- Cutter\_EH.BGL
- Escorial.bgl
- Gaviota\_.bgl
- Gaviota\_LEGK\_AF2.bgl
- Gaviota\_LEGS\_AF2.bgl
- portaaeronaves\_P\_asturias\_.BGL
- portaaeronaves\_P\_asturias\_estela.bgl
- presa\_itoiz.bgl
- presa\_yesa.bgl
- varios.BGL

The list is at the end of the Spanish version of this document.

## COMPATIBILITIES

- These sceneries have been tested in FS2004.
- Ultimate Terrain Europe
- Es compatible con Real Spain de Jose Antonio Romero.
- FS Global 2010
- Some of the Spanish Airports by Aerosoft (see below for some airports incompatibilities).
- Canarysim.
- France mesh of Jg-Laurent (to keep continuity to the scenery). You can download it from [www.jg-laurent.com](http://www.jg-laurent.com)

### KNOWN ISSUES

Some users have reported some problems in Valencia area. There might be several reasons:

- You may have installed a package of Spanish towns offered in VATSIM and the simulator gets blocked in this area. It seems to be incompatible with this scenery. Please do not install.
- Users have reported bugs due to 9.1 update of FS2004 not installed.

### ADDITIONAL ADVISING

Set the scenery mesh complexity to 90% or higher in the Display Configuration. You will get a more detailed terrain.

Set the scenery complexity to Dense (otherwise the VFR balloons will not be seen).

It is recommended to install 'Ultimate Terrain Europe'. It can be purchased in **[www.flight1.com](http://www.flight1.com)**. It adds Extensive Road Network, Railroads, Spectacular Night Lighting, Accurate Water Data, Enhanced Coastline System, Landclass Enhancements, etc.

## CONFIGURATOR

A configurator tool (**ahs.exe**) has been created to easily enable/disable the different options of AirHispania SC.

This Configurator (**ahs.exe**) can be found in the AirHispania SC folder:

Nombre	Tamaño	Tipo	Fecha de modificación
ADs Eventuales		Carpeta de archivos	26/02/2011 2:42
scenery		Carpeta de archivos	26/02/2011 13:47
texture		Carpeta de archivos	26/02/2011 16:35
ahs.exe	557 KB	Aplicación	26/02/2011 16:06

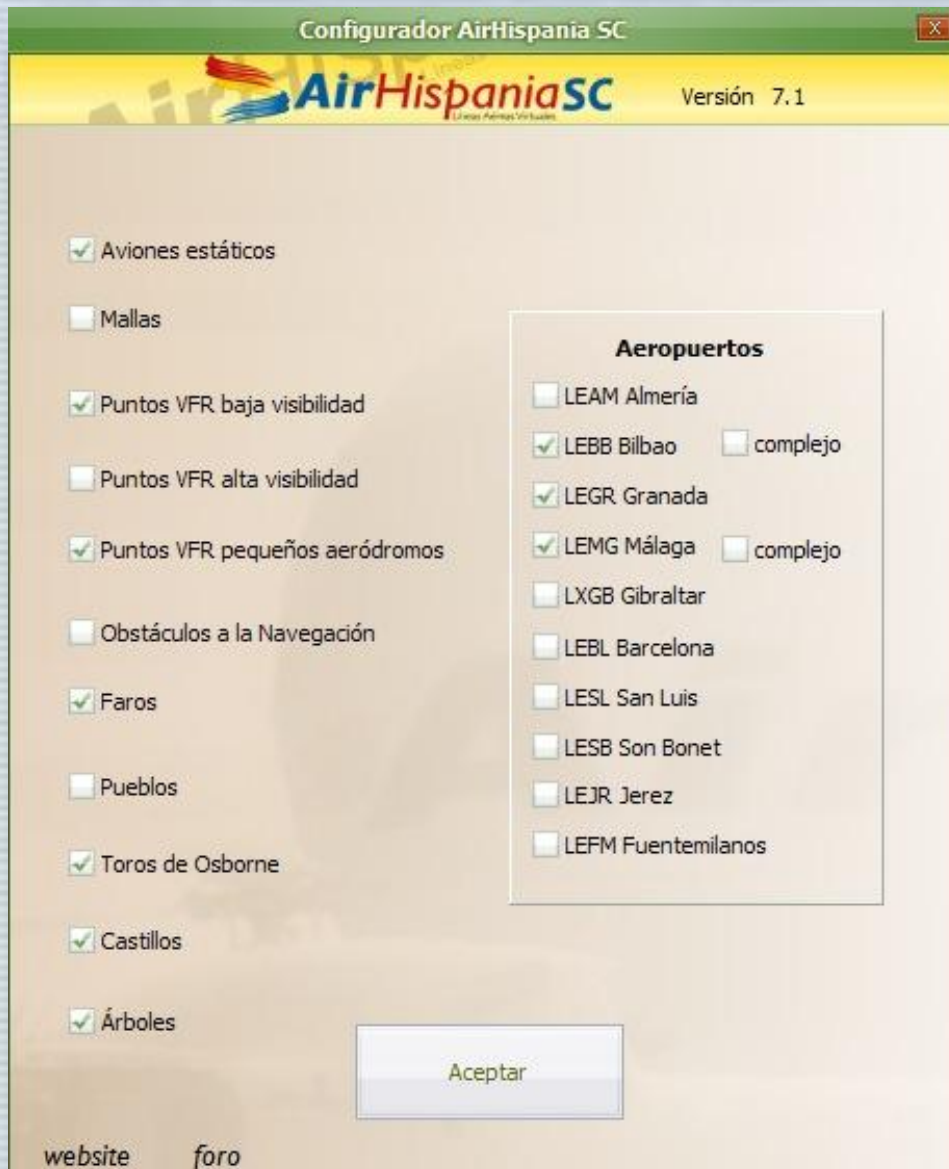

The Installer of each package/update also includes the Configurator.

At the end of the installation process, the installer offers to run the Configurator.

It is advisable to do so because the Configurator deletes obsolete files that might interfere.

The Configurator looks as follows:

Just tick the items you want to enable and click "**Aceptar**".

The Configurator will create a file called **ahs.ini** in the AirHispania SC folder.

The version and options selected are recorded there.

The Configurator reads the **paquetes\_instalados.ahs** file (updated by installers) and find out the installed packages, letting us enable/disable just the options that apply.

## HELIPORTS LIST

### Andalucía:

LEEX: Expo 92, Sevilla. Sociedad Gestión Activos.  
LERT: Rota, Heliport + Puntos VFR helicópteros.  
HE01: Isla de Alborán.  
HE06: Hospital Virgen de las Nieves, Granada  
HE03: Heliport de Pradollano, Sierra Nevada.
